

Smoke Alarms

Carbon Monoxide Alarms

- Protect your home and family by installing working smoke alarms on every level of the home, in the hallway outside the sleeping areas, and in each bedroom.
- Test your smoke alarms once a month, replace the battery every six months, and replace the entire smoke alarm every 10 years.
- When a carbon monoxide alarm sounds, move all people and pets outside immediately and call 9-1-1.
- Install alarms in each sleeping area and on every level of the home.

Home Escape Plans

- Create a home escape plan and practice escaping your home with your family in two minutes or less.
- Draw a floor plan of your entire house showing all doors and windows.
- Identify two ways out of every room.
- Establish a meeting place outside the home.
- Always sleep with bedroom doors closed.
